# Managed WordPress Hosting

There are a lot of choices when you are looking for managed WordPress Hosting.

It can seem overwhelming because a lot of the platforms offer similar services.

Although many other companies offer VPS, Shared, or Dedicated server environments the only company to provide a unique managed hosting solution is Cloudways.

# Managed WordPress Hosting

Cloudways Hosting For WordPress Sites allows for rapid deployment of computing resources to keep your website up and running.

**Managed WordPress Hosting Trusted by  
100,000+ SMBs, Agencies & Individuals**

Our managed WordPress hosting is aimed at individuals and businesses looking for a complete hosting experience.

# Cloudways Vs. Traditional Hosting

## How Is Cloudways Different?

- **Cloud hosting means that your site is stored on multiple servers and with traditional hosting your site is stored on one server.**
- **Cloud hosting allows your site to be migrated easily**
- **SSD based WordPress hosting provides faster site**
- **Cloudways offer flexible payment options such as pay as you go hosting**
- **Cloud hosting improves uptime because network of servers take over if anything goes wrong**

# My Favorite Cloudways Features

Cloudways basic hosting plan offers cloud server with 10 GB Ram, 25 GB Storage, 1 TB bandwidth, and 1 Core Processor.

## Below Are My Favorite Cloudways Features For WordPress Sites:

- **24/7 Customer Support**
- **Easy Site Migration**
- **Dedicated Firewall to Secure Your Site**
- **One Click Installation for Apps**
- **Easy to Set Up a New Site**
- **Auto Healing to Lower Risk of Site Crashing**
